

## Gena Carr

PRODUCTION ASSISTANT

Email:

Office:

### Experience

Gena grew up in the mountains of Washington and Alaska, and received a Bachelor of Science in geology from University of Puget Sound in 2013. After graduating, she pursued a variety of experiences, from teaching English in France and South Korea to being a paralegal at a boutique business law firm and is a firm believer that every experience is a learning opportunity. Outside of the office, Gena enjoys reading, traveling, spending as much time outside as possible, and baking for friends and family. She is hoping to achieve a masters degree in geophysics and seismology in the near future, to study earthquake science and earthquake warning systems.

### Quote

Buell immediately caught my interest through being a women-owned and women-run small business, their extreme attention to detail, and the care with which they treat every single client and employee. I enjoy being able to work with a variety of people and learning new skills from each of them.
