Experience

Originally from California, Olivia graduated from California State University-Chico with a Bachelor's degree. Prior to working at Buell Realtime, she worked for a criminal defense law firm in California. When Olivia is not working, she is obsessing over true crime stories and is determined to solve a cold case on her own one day. That, and hanging with her chihuahua "Lil Sweet" discovering and learning more about her new home town the Pacific Northwest.

Quote

I have always been interested in the legal field from a very young age as I love true crime stories! The legal industry fascinates me and I learn something new every day. With previous experience working in law firms, the job at Buell Realtime was a perfect fit.
